

United States Court

District of Oregon

United States of America, | Case
Plaintiff, |

NO. 3:17-CR-00400-HZ

-v-

Jason Paul Schaefer,
Defendant.

| Declaration of Jason
| Paul Schaefer in Support
| of Waiver of right
| to Appear
|

I, Jason Paul Schaefer, do hereby depose
and declare the following to be true and correct,
upon penalty of perjury:

I do not deserve the sentence that I
am about to receive. I never threatened arresting
officers, charged at them, or menaced them in any
way. Their allegations contradict each other and are
contradicted by all civilian witnesses, one of whom
was interviewed by an unknown officer and
concealed.

I am being persecuted for my activism
with the drug Ibogaine, a substance whose effects
upon addiction effectively defraud the government
and the Presidency, and national policies towards "treating
addiction."

The government intuitively knows that if I were ever let out of custody, my activism would resume. And so they have engaged in a concerted effort to lie under oath and wrongfully convict me.

Furthermore, if they had told the truth, they would not have evidence necessary to substantiate any criminal charges and they would have been subjected to public outrage. Current efforts by the government to shield their "Trial File" from judicial scrutiny evidences misconduct in instating the prosecution.

The proceedings held against me are so lacking in integrity that they amount to a lynchmob. My philosophical and religious beliefs forbid me from lending any semblance of credibility to these proceedings, lest they happen again to another innocent person. I will not send meaningful letters to the presiding judge, nor will my family, nor will they or I appear at the sentencing hearing.

I will not assist these courts with this criminal matter, nor will I entertain them. I will not risk the liberty and lives of other innocent people. I will undermine, in every possible way, a system which presents itself as a public hazard.

Deputies at the Multnomah County Detention Center recently told me that they would use force

in the event someone did not cooperate with a transportation.

Such Force will have to be exercised upon me to ensure my Appearance at Sentencing. Such Force could well result in serious physical injury to my person.

I have the First Amendment right to make my own Speech, or not make my own Speech.

Similarly, I believe I have the right both to petition the Courts, and not petition the Courts. The right to fearably assemble, or not assemble. I should have the right to not appear at a Court hearing which I believe would put other people and society itself in danger if I did appear. I should not be compelled to endanger people.

Jason Schaefer
